**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 01 February 2007.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

- 4) ☒ Claim(s) 11-20 is/are pending in the application.

### DETAILED ACTION

Examiner acknowledges receipt of amendment and remarks filed 2/01/07. Claims 11 and 17 are amended. Claims 11-20 are pending.

**Previous rejections that are not reiterated herein are withdrawn.**

#### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 11-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is new matter rejection.

The examiner does not find support for the new requirement that the composition be “devoid of hydrophilic phase” in the original specification as is now recited in claims 11 and 17.

Applicant has not provided the section or paragraph of the specification that provides support for absence or presence of hydrophilic phase. The specification at paragraph [0048] of the published specification mentions “colloidally dispersed phase.”

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1618

4. Claims 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Amended claim 17 requires the carrier composition to be “devoid of hydrophilic phase” while the nonionic amphiphilic surfactant has polyethylene oxide as the hydrophilic component. Since the surfactant is part of the carrier, it is not clear how the surfactant which has hydrophilic component does not contribute hydrophilic phase.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 11-20 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Al-Razzak et al. (WO 98/40051).

Al-Razzak discloses cyclosporine composition that does not contain hydrophilic phase (abstract). The cyclosporine is present in amounts of 0.01 to 50% (page 5, line 32); the surfactant, which is preferably non-ionic and having HLB of 10 is present at 5-90%, with a more preferred amount of 30-50% (page 5, lines 28-30); the surfactants in Al-Razzak are both sorbitan and oils (page 5, lines 1-20) meeting the limitations of 11 a), b) and c). This interpretation is borne out by applicant's examples. The percent amount of the combination of the oils in

Art Unit: 1618

examples 1-28 is at 90 % and the cyclosporine is at 10 %. Specifically the percent amounts of the various oils in example 7 meet the limitation of the percent amount of a) at 40%, c) at 40 and b, the oils at 10% and further meets the limitation of claim 19. The composition of Al-Razzak is used to fill soft gelatin capsules (page 13, lines 12-14), meeting claim 20.

In the alternative, if the percent amounts of the oil components in Al-Razzak differ from the claimed amounts, it would be obvious to the artisan to formulate compositions having poorly-water-soluble drugs such as cyclosporine in an oil carrier in amounts that would be effective in for producing the desired bioavailability of the cyclosporine.

No claim is allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
